Dear Mr. Burr:

Re: Status and Bonding on Hobo #1 Placer Mine, S/019/023, Grand County, Utah

As a result of the Division's inspection on July 12, 1990, the acreage on site was determined to be 6.36 acres. The Division must therefore, ask you to supply the state with a reclamation surety. The surety must be in sufficient amount to ensure complete reclamation of the site in the event that it were to be abandoned.

You may supply the State with a surety/bond amount figure which we will evaluate, or the State will unilaterally determine an amount.

The State will allow you the option to reclaim portions of the site, no longer needed, to reduce the acreage and avoid bonding.

Please notify us by September 1, 1990 as to the active-inactive status of your site and your intent regarding bonding vs reclamation.
